CONTRACTOR OPPORTUNITY AT CAFF: SMALL FARM TECHNOLOGY HUB

Title: Contractor, CAFF’s Technology Hub
Location: Remote, services to be provided to CA based businesses
Compensation: Annual budget of $7,000-$37,000
Duration of contract: March 2021-December 2021, with option to extend
Reports to: Tech Hub Specialist
Start Date: April 1, 2021

The Community Alliance with Family Farmers (CAFF) is a membership organization guided by a board of directors that includes family farmers and others who are passionate about food, farming, and the environment. CAFF’s mission is to build sustainable food and farming systems through policy advocacy and on-the-ground programs that create more resilient family farms, communities, and ecosystems. CAFF works on-the-ground with family farmers to assist them with climate smart farming, food safety plans, and introductions to new markets. In 2021, CAFF enters its 43rd year as the leading organization in California advocating for sustainable food and farming systems. See http://www.caff.org for more information.

Position Summary:
Community Alliance with Family Farmers (CAFF) is launching a new Technology Hub to support small family farms and food enterprises across California in adopting technology based solutions for their direct marketing challenges. The contractor(s) will work with our Tech Hub Specialist in providing direct technical support to hundreds of farmers across California resulting in increased sales for farm business and diversification of sales channels. This position will be directly serving Spanish speaking communities across California.

Core Responsibilities include:
- Provide direct support to farmers, ranchers, and food businesses on web-based solutions that will make purchasing local food more convenient, accessible and competitive. Support includes assisting with answering technical questions, identifying what resources are available and how to access them, troubleshooting software issues, and general support as needed.
- Assign regular office hours for farmers seeking support.
- Provide Spanish translation for tech hub resources and online content or coordinate with translators as needed.
- Conduct outreach (email, phone, in-person, partner events, etc) to Spanish speaking farmers and develop outreach strategies for the new Tech Hub.
• Keep internal tracking documents up to date with farm contacts and key details from tech support sessions.

Additional responsibilities to include:
• Support the Tech Hub in producing Spanish resources, website templates, social media copy, and online content for the new Tech Hub website.
• Support with providing online trainings in Spanish, and other events when possible.
• Build farmer and rancher capacity to use web-based tools to generate and coordinate sales, marketing, inventory management, and order fulfillment.
• Research and vet existing online tools for CAFF’s Tech Hub.

Required qualifications:
• Spanish language fluency, both written and verbal.
• Experience in marketing and digital strategies.
• Familiarity with web-based tools for farmers.
• An understanding of challenges small businesses and agricultural communities experience.
• A proven track record of adapting to different technical assistance needs (e.g. not a one size fits all approach to technical assistance).
• Effective communication skills with a service orientated mindset and passion for supporting small businesses.

Optional but helpful qualifications:
• Experience or education in agriculture or food production
• Experience in a non-profit organization
• An existing network of california based farm & food enterprises

Description of supplemental activities available to all applicants:
Multiple contractors will be hired to serve a total of 160 farms for the 2021 year. In addition, 1,350 farmers or business representatives will be reached through indirect engagement, e.g. webinar attendees, event attendees, etc. Disadvantaged farmers including historically disadvantaged populations (immigrant, undocumented, people of color, LBGTQ) and older farmers with little to no background in using web based technologies will be prioritized to the largest extent possible.

Additional work opportunities are available through these contractor positions as listed below. If you are interested in either/both please state so in #4 in the “how to apply” section.

- Providing direct technical support to farmers and ranchers based in Sonoma County with adoption and implementation of web-based technologies.
- Providing tailored e-commerce technical support to 5-15 organic seed producers located in California. Applicants must have an understanding of the challenges seed production companies experience.
Compensation: Annual budget of $7,000-$37,000, contingent upon supplemental activities and number of farms supported. Travel stipends available. Invoices billed monthly by contractor and paid by CAFF.

Approximate number of hours a month: 25-120, contingent upon activities

Basic work requirements:
Ability to work remote and access to wifi and phone. Familiarity with common computer-based tools such as Microsoft Office Products (Word, Excel, Powerpoint) and/or Google Drive (docs, sheets, slides); email; and websites. Fluency in Spanish and english. Willingness to travel within California occasionally, up to several times per week. We acknowledge current COVID-19 related travel restrictions but expect that this position will require travel in the future.

How to apply:
We encourage all interested applicants to apply, even if you feel you do not meet all of the requirements. Please submit your application as one document with subject line “Tech Hub Contractor_Spanish” to evaughan@caff.org. Application to include your resume and responses to the following four questions:

Questions:
1) What are the qualities, contributions and experiences that you bring to this position? Please provide examples. (300 word count max)
2) Systemic racism and inequity are pervasive in U.S. food and agricultural systems. What thoughts do you have as to how CAFF must show up now and moving forward? How does your experience prepare you for this? (300 word count max)
3) CAFF strives for the new Tech Hub to reach socially disadvantaged farmers across California. Propose one strategy for how you would reach small CA farmers who lack technical skills and access to resources, e.g. older farmers, farmers from historically disadvantaged communities, farmers with limited access, etc. (200 word count max)
4) If applicable, please list the supplemental work you feel you are qualified to further support with:
   - Directly supporting Sonoma County based farmers and ranchers with adoption and implementation of web-based technologies.
   - Providing direct technical support to CA organic seed producers and businesses. TA to focus on e-commerce needs with the goal of increasing online sales.

Applications are accepted on a rolling basis but those received by March 19th will be given preference.
CAFF’s policy is that all persons are entitled to equal employment opportunities regardless of race, color, religion, gender, marital status, or sexual orientation. We strongly encourage those from diverse backgrounds and from historically underserved communities to apply. Multicultural candidates are encouraged to apply.
